MOODS AND COLOURS

Does colour affect your **0) behaviour**? Many experts insist that colour can influence our moods and **1).....** .
So, if you plan to redecorate, think **2).....** before making a **3).....** about what paint to buy. The effect each colour has on you should be taken into **4).....**, as the wrong one could make you depressed or **5).....** instead of relaxed and comfortable. A cool, **6).....** blue is best for bedrooms as it is calming and promotes sleep. Green, representing nature and **7).....**, is ideal for living rooms, while red, the colour of energy and **8).....**, is best for dining rooms. Another important piece of **9).....** is to avoid yellow for the bedroom. If you are ill, it is likely to make you feel worse and slow your recovery.
